

# JUDY DAVIS

Judy Davis is a professional photographer dedicated to the fine art of photographing architecture and interior design. As a partner of Hoachlander Davis Photography, she specializes in documenting the built environment and has helped clients win numerous awards in both regional and national competitions. She brings a keen eye for design, patience, enthusiasm and collaborates with a meticulous attention to details. Working with clients for 20 years in the Washington DC community, Judy has photographed projects from New York to New Mexico and in between.

When she's not shooting from atop a 90-foot crane or photographing an outdoor fireplace ablaze on a hot summer day, you'll find Judy capturing film images with a toy Holga.
